Feature Comparison Legacy Security Platform and Modern Security Platform

No	Feature	Legacy Security Platform		Modern Security Platform		Remarks	
		Support	Enable	Support	Enable		
1	sample	✓	✗	✓	✗	sample	sample

IMPROVEMENT

1. Ensure knowledge transfer across all stakeholders (organic and non-organic employee) is synced-up, properly completed, and well-documented
2. Ensure agent compatibility based on principal recommendation or knowledge based and align with previous testing procedure
3. Standardize processes during implementation change to avoid human error.

APPENDIX

Evidences

1. Get Information from Operation Team 4 activity Patching
